

DJ Paul Frankland Bio

Paul started out as a DJ in the late 90s, gaining his first residency at a local ice-skating centre before progressing on to mobile discos. By 2001 he was regularly performing in bars and clubs with several residencies. He has also performed many one-off gigs in Tokyo, Dubai, Oslo, Bangkok, Kuala Lumpur, Hong Kong and Manilla as well as presenting on radio for Rock FM and even a private party for Samuel L Jackson.

Paul is an 'Open Format' DJ, able to cover most genres of music and read the crowd. Typically playing current dance, chart and party classics although also able to provide themed 90s nights. He is very confident in microphone work, presenting on stage and interacting with crowds. Paul is currently available to book as a walk-in or mobile DJ for clubs, bars and functions.
